Retailer Feed-In Tariff Scheme Terms

Preamble

Under the Electricity Act, all electricity retailers with more than 5,000 Customers must offer to purchase electricity fed back into the grid by Qualifying Customers.

These Terms set out the conditions on which we will purchase electricity from you if you are a Qualifying Customer, and will apply in addition to your Contract without limiting, varying or excluding the operation of your Contract in any way.

These Terms may only be varied with your express consent, except where changes occur to the Energy Laws, in which case these Terms should be taken to be automatically amended. If any amendments materially affect your rights or obligations, we will advise you as soon as possible after the Energy Laws change. In the case of any inconsistency between the Energy Laws and these Terms, these Terms will prevail to the extent allowed by the Energy Laws. Any inconsistency not allowed by the Energy Laws will be void.

Unless otherwise specified, capitalised words used in these Terms are defined in clause 9.

1. About your RFIT Agreement

1.1 Are you Qualifying Customer?

- (a) To be a Qualifying Customer for a Supply Address, you must be a Customer who:
 - (i) purchases electricity from us at a rate of 100MWh or less per annum;
 - (ii) engages in the generation of electricity at your Supply Address through a Small Renewable Energy Generation Facility;
 - (iii) has been exempted by Order under section 17 of the Electricity Act from the requirement to hold a license in respect of the generation of electricity for supply and sale; and
 - (iv) has a suitable meter type and tariff at your Supply Address.
- (b) If you have a facility that generates renewable electricity and it is not connected to the distribution system to which your Supply Address is connected, on your request and as soon as practicable after you enter into a Contract with us, we will request your distributor to connect your facility to the distribution system, to enable your facility to become a Small Renewable Energy Generation Facility. We will make this request no later than the next Business Day after receiving from you all documentation required under the *Electricity Safety Act 1998 (Vic)* and all documentation reasonably required by us or the relevant distributor.
- (c) If we determine that you are not a Qualifying Customer, we will contact you to advise you of any other options you may have.

1.2 When does your RFIT Agreement start?

- (a) Subject to clause 1.2(b) and (c) and any applicable cooling-off period, we may agree a start date with you for your RFIT Agreement.
- (b) Your RFIT Agreement will start on the later of:
 - (i) the date we start supplying electricity to your Supply Address;
 - (ii) if you are already our Customer, the date:
 - (A) you accept the offer set out in your Electricity Plan and satisfy any relevant pre-conditions; or
 - (B) we start to sell you electricity under our Standing Offer; and
 - (iii) the date you become a Qualifying Customer.
- (c) If you are on a Market Agreement, you must give us your express consent to entering into your RFIT Agreement.

2. About your Retailer Feed-In Tariff

2.1 What is your Retailer Feed-In Tariff rate?

- (a) Your Retailer Feed-In Tariff rate is not less than the minimum rate set for each year by the Essential Services Commission, excluding GST, or if no rate is set, any reasonable rate determined by us from time to time.
- (b) If your generation of electricity from a Small Renewable Energy Generation Facility relates to a business enterprise carried on by you and you are registered for GST, you must provide us with your ABN. On receipt of your ABN, we will provide you with a 10% credit for the GST component, in addition to the Retailer Feed-In Tariff rate detailed in clause 2.1(a).
- (c) From time to time, we may choose to credit you an additional amount for the electricity you feed back into the grid. We may withdraw this additional credit at any time by notice to you, in accordance with clause 2.1(e).
- (d) Within 10 Business Days of a request from you, we will give you information (in writing if you require) about the feed-in tariffs we can offer you.
- (e) We will give you notice of any variation to the Retailer Feed-In Tariff rate or additional amount credited by us under clause 2.1(c). The notice may be a message on your bill. We will notify you as soon as practicable, but by no later than your next bill. A notice of a variation to our tariffs under your Contract is taken to be a notice under your RFIT Agreement.

2.2 How do we determine your Retailer Feed-In Tariff payment?

- (a) Unless you expressly consent otherwise, your Retailer Feed-In Tariff payment will be based on the amount of electricity you export to the grid during a Billing Cycle.
- (b) To enable us to determine your Retailer Feed-In Tariff payment under clause 2.2(a), you must:
 - (i) have a national electricity market compliant meter that records your supply of electricity to the grid; and
 - (ii) comply with clause 2.2(c) so that your meter can be read.
- (c) You must allow the Responsible Person, or the Responsible Person's representative, safe, convenient and unhindered access to your Supply Address and meter, for the purpose of reading your meter (and for connection, disconnection, reconnection, maintenance and repair). The person who requires access will carry or wear official identification and on request will show that identification to you
- (d) If a reading of your meter cannot be obtained during any Billing Cycle and your distributor provides us with an estimate of the amount of electricity you export to the grid, your Retailer Feed-In Tariff payment will be based on that estimate.
- (e) If your Retailer Feed-In Tariff payment is estimated under clause 2.2(d) and we later receive an actual reading of your meter, we will adjust your next bill under clause 2.5 to make up the difference between the credit you received and the credit you should have been provided. We will also use our best endeavours to ensure that the meter is read at least once in any 12 month period.

2.3 When do we pay you for the electricity you export?

- (a) Subject to clause 2.3(b), we will apply the Retailer Feed-In Tariff as a credit against the charges payable by you in each Billing Cycle, to pay you for any excess electricity you export to the grid.
- (b) We will not pay you for any electricity you export if a reading of your meter cannot be obtained and your distributor does not provides us with an estimate of the amount of electricity you export to the grid under clause 2.2, or if some other event occurs that is outside our control.

2.4 What if your Retailer Feed-In Tariff credit exceeds our Charges?

If your Retailer Feed-In Tariff credit exceeds our Charges in any billing period, we will add the additional credit to your next electricity bill and carry over further credits to future electricity bills until the excess credit is extinguished.
